As the director I am cordially inviting you to attend the traditional 19th Christmas Symposium of Physicists.

This is a traditional top-level annual national scientific meeting covering all research disciplines in physics, with some distinguished guests from abroad (30%). In a sense, it is a fine collection of talks on the physics colloquium level. This scientific structure has been widely and greatly appreciated, also internationally. Although the meeting is a national meeting, with prominent international participation, **all talks are delivered in English**. The lectures are on the general colloquium level rather than on the level of a specialized seminar.

This year the meeting is again under the general patronage and the coorganization of the **European Academy of Sciences and Arts (EASA, Salzburg)**, with

the strong support of the President Professor Klaus Mainzer, who will deliver his opening address and present his scientific lecture. Among the invited speakers there will be at least 8 EASA members.

The meeting is announced at the conference web page.

The abstracts of all invited lectures will be open on this web page after 15 November.

The typical structure and program of the previous meetings can be seen here

Below is enclosed the list of confirmed invited speakers.

In addition to the scientific program we shall also have quite rich social and cultural program, namely the two festive dinners with concerts (60 minutes) on Thursday and Friday. On Thursday internationally well known pianist Nejc Kamplet (Maribor) will play for us, and on Friday string quartet Al Fine (Ljubljana). Therefore, we can expect again a very interesting, successful and culturally rich Symposium.

If you are interested to attend, please just send an email to my email address: Robnik@uni-mb.si, or contact me at one of the above addresses.

The expenses to be covered by the participant include the travel and local expenses, plus a registration fee 300 EUR.

Sincerely,

Prof.Dr. Marko Robnik, Member of EASA
— Director of **CAMTP** —
